Frequently asked questions

What is LiveHealth Online?

With LiveHealth Online[®], you have a doctor by your side 24/7. LiveHealth Online lets you talk face-to-face with a doctor through your mobile device or a computer with a webcam. No appointments, no driving and no waiting at an urgent care center.

Use LiveHealth Online for common health concerns like colds, the flu, fevers, rashes, infections, allergies and more! It's faster, easier and more convenient than a visit to an urgent care center.

Why would I use LiveHealth Online instead of going to visit my doctor in person?

LiveHealth Online is not meant to replace your primary care physician. However, it is a convenient option for care if your doctor is not available, or if you need care for common problems like a cold or the flu. LiveHealth Online connects you with a board-certified doctor in just a couple of minutes. Plus, you can get a LiveHealth Online visit summary from the *MyHealth* tab to print, email or fax to your primary doctor.

LiveHealth Online should not be used for emergency care. If you experience a medical emergency, call **911** immediately.

How do I access the LiveHealth Online mobile app?

Do doctors have access to my health information?

LiveHealth Online doctors can only access your health information and review previous treatment recommendations and information from prior LiveHealth Online visits.

If you are using LiveHealth Online for the first time, you will be asked to answer a brief questionnaire about your health before you speak with a doctor. Then the information from your first online visit will be available for future LiveHealth Online visits.

How does LiveHealth Online work?

When you need to see a doctor, simply go to **livehealthonline.com** or access the LiveHealth Online mobile app. Select the state you are located in and answer a few questions.
