WIRELESS NETWORK

Q: How do I connect to K.W.C.'s wireless network?

A: In order for a student to connect to our wireless network, please follow these directions:

- On your device, search for the wireless connection named KWC.
- When you see it, please click on connect and you will be prompted for a password. Enter the password that was sent to your KWC email account.

Q: Will my wireless connection effect connecting to other networks when off campus?

A: Your connection properties only apply when you are on campus. The policy key and network settings do not effect any other wireless connections.

Please feel free to contact us with questions.
